Research Topic (3)

Title: Ethics for IT Workers

Write research explaining why it is very important for IT workers to maintain the highest level of ethical behavior.

The research should include:

- Explain with an example what is a company standard business conduct

- List and describe the various stake holders that an IT worker deals with

- Provide at least 3 real life case studies where IT workers failed to follow a professional code of ethics.

NB:

The form of the research should follow the following rules:

a. Writing using Microsoft Word.

b. Using Time New Roman font.

c. 14 Font size for text and 16 Bold for the title.

d. Single space between the lines.

e. Page margins are 2.5 cm from top, bottom, right and left.

f. The number of words is not less than 1000 words

h. English language formulation should be correct and sound.

i. Clarity of texts, pictures or drawings.
